WATCHMAKER & JEWELER

A Big Sports Day

Bills are out which carry a list of events and attractions for this coming Monday, Labor Day. The main program will be carried out at the Exhibition grounds in the afternoon and consist mainly of a fist list of horse races. Good prizes are offered in each event and there are events for all, 2.30 trot or pace, 1 mile; 2.40 trot or pace; 3 minute trot or pace; open run, one mile; pony race, 14.2; Boy's pony race, 14.; relay race; novelty race; men's half mile race; boy's race and a horseshoe throwing tournament. The horse shoe throwing tournament is an attraction which is drawing a large number of entries and there will be keen competition in this event.

A refreshment booth will be provided on the grounds to meet requirements along those lines. Other items of interest to make the day a success will be the Salvation Army band, a baseball game in the evening and a dance to finish up with.

Providing the weather holds fair a good crowd should turn out to the Sports where they will certainly get their money's worth for the 50 and 25 cents admission charged.

Breach of Holiday Act

A police court case came up on Tuesday which has a point of interest connected with it important to the whole community. One of our worthy citizens, Mr. H. Hawkes was brought before court charged with breaking the Wednesday half holiday act. He pleaded guilty and a small fine and costs was imposed.

This is the first charge to be brought up under this act though there have been reports that it has been a more or less common occurrence for different of the stores to let goods out on Wednesday afternoons. There is fault on both sides in a case of this kind but it is the storekeeper who suffers. The first offence carries a small fine, the second \$25 and the third \$100 fines. The cooperation of the people is asked to avoid leaving business till Wednesday afternoons. As Mr. Hawkes stated, when a farmer comes in and asks a merchant for goods the merchant gives them as a favor knowing the farmer has come some distance for them, and yet the merchant is laying himself open to a risk which he should not be asked to take. There are cases when it is almost imperative that a farmer get the goods when he comes in but in the majority of cases arrangements can be made to get in at other times or on Wednesday mornings. A remembrance of this point and the Wednesday afternoons next year will be a help to all.

A large number of Didsbury baseball fans motored to Carstairs last Saturday to witness the game between Carstairs and Calgary in which Carstairs won. Another game was played in Calgary on Tuesday resulting in a tie. They play again in Olds at 3 o'clock on Saturday afternoon and if Calgary wins it will mean another game somewhere else, otherwise Carstairs win the Alberta Intermediate Championship.

The Calgary Salvation Army Silver band will be in Didsbury on Monday afternoon, Labor Day, and will give an open air concert from the bandstand. They are giving concerts at different points along this line. This is one of the best bands in Alberta and you can be assured of a worth while program.

AROUND THE TOWN

Mr. Cecil Studer spent Sunday in town.

Mr. and Mrs. W. J. Leder returned from a motor trip from Lougheed on Thursday.

Mr. Jim Clarke of Calgary, was a week end visitor at the home of Mr. and Mrs. Frank Mertens.

Miss Edith Osmond spent a few days in Carstairs at the home of Mr. and Mrs. Glenn Durant.

Mrs. D. Pettie of Edmonton spent a few days in town the guest of her sister Mrs. C. Mortimer.

Miss Ruth Liesemer of Carstairs has accepted the position of teacher of the Melvin school.

Have you noticed that pleasant smile on the children's faces lately? School starts next Tuesday.

Miss M. Saunders of the Union Bank staff has returned to town after spending her holidays at Lacombe.

Miss Thelma Sexsmith spent a few days in Calgary the guest of Miss Helen Reed, formerly of Didsbury.

Miss Irene Rodaway returned to town on Saturday after spending a three weeks holiday with her mother in Seattle.

Mr. Norman Kennedy of Calgary has taken up the duties of teacher at the Elkton school.

Mrs. A. G. Studer and Miss Mae Studer were Calgary visitors during the week end.

Mr. Arnold Liesemer motored to Banff in his "bug" on Sunday to spend the remainder of his holidays.

Miss Pearl Sterling spent a few days in town the guest of Miss Ruby Tfunsperger before proceeding to take up duties at her school at Pine Lake.

Mr. E. G. Ott and wife of Edmonton were visitors here last week and while here motored to Calgary accompanied by his mother Mrs. A. Murray and Mrs. P. McNeil.

Mr. and Mrs. M. Weber, accompanied by their daughter Reta, Miss Kathleen Osmond and Mr. Jack Fluery are camping for two weeks on Mr. Weber's ranch near Elkton.

Mr. F. B. Foster of Olds has been awarded the contracts for improvements on the Rosebud School and Adshead's garage. The school improvement is in the foundation, and the garage, when completed, will have all cement floor.

A dance will be held in the Opera House on Saturday night at nine o'clock. Good music has been procured and the usual good time is assured. Next week's picture, "Hollywood," is said by Manager Sharp to be an excellent picture and features an all star cast.

If anyone is discouraged because of crop conditions they should visit D. C. Carver's farm on S. E. Sec. 6, Tp. 32, R. 3, W. 5, and they will be cured of the blues and realize that this country cannot go to pieces when such grain can be raised. His wheat stands five feet high and he expects to get between forty and fifty bushels to the acre.

A demonstration in home musing will be held under the auspices of the Mountain View Women's Institute on September 3rd at the Community Hall, at 2.30 p.m. The demonstrator will be Miss Brighty of the Women's Home Bureau Service, Dept. of Agriculture. All ladies are cordially invited to attend. Demonstrations are given free of charge.

A Lesson in Success

Teach your children to save. Open a Union Bank Savings Account for each of them. Let them be friends with the Bank Teller and take their own deposits to him.

The easiest road to success is the savings habit.

A Better Day Dawns

After years of negotiations, and following the failure of one conference after another to make any substantial headway, an agreement has at last been reached with Germany regarding the payment of reparations which gives promise of putting an end to the impossible situation so long prevailing in Europe and which has brought economic distress throughout the world.

The agreement reached, based on the Dawes report, has received the unanimous approval of the British, French and German cabinets and is fully acceptable to Belgium. France and Belgium have undertaken to evacuate the Ruhr within one year, and in all probability the evacuation will be completed within a less space of time. Already certain towns in Baden have been evacuated.

At the conclusion of the conference in London at which the agreement was reached, the Premier of France and the Chancellor of Germany shook hands. This was the first post-war conference, says one of the German participants, in which the words "vanquished" and "victors" were dispensed with, and, he adds: "Throughout the negotiations we were never made to hear one disagreeable word." On his return to Berlin, the German Chancellor expressed his belief that the French Premier was sincerely desirous of promoting the peace of Europe, that he was actuated by the best intentions and could be trusted. It is further reported that France and Germany will shortly open negotiations concerning commercial treaties.

Not quite six years have elapsed since the signing of the Armistice which ended actual hostilities in the Great War, and while it seems a long period of time in which to bring about an agreement regarding a matter which was first covered by the Peace Treaty, it is not, after all, such a long time in which to allay the most bitter feelings and to quiet the deep-rooted suspicions of each other following more than four years of warfare and unprecedeted loss of time and property.

People are apt to grow impatient with diplomats and statesmen entrusted with the handling of delicate international questions, and to become very critical of them because more rapid progress is not made in the settlement of outstanding problems and disputes. But how often is some petty family quarrel or dispute among neighbors over a trifling matter allowed to continue from year to year, and even from generation to generation. And nations are only big families and neighbors, and all the faults, jealousies, suspicions of individuals are reflected in the nation. The chosen leader of the people in each country must pay attention to the opinions of his people, and those who complain of slowness in action should realize that public opinion in each and every country must first be educated, and suspicions allayed before progress can be made.

The fact that so much progress toward a better understanding in Europe has been achieved is a matter for profound congratulation, not to the peoples of Europe alone, but to the whole world. Before 1914 Canadians gave little heed to European quarrels, and regarded them as something which were no particular concern of residents on this side of the world. But the Great War brought a sudden and bitter awakening. We learned that not only our material progress, but the lives and liberties of our people were jeopardized through issues which were not of our making. And since the Armistice we have had daily reminders through depression in trade and economic losses of many kinds that no nation today can live unto itself, and that what adversely affects one part of the world affects all.

In Canada, therefore, we have reason to rejoice that an agreement has been reached paving the way for a better understanding in Europe, for a relaxation of the state of war which has to all intents and purposes existed through the French and Belgium occupation of the Ruhr, and for the repudiation of old suspicions and fears by a mutual acceptance of a sincere intention by all to live up to their obligations the one to the other.

The London conference in its final results, gives promise of better days, and renewed prosperity throughout the world.

Trying Out New Scheme

Good Conduct Convicts From English Prison Given Holiday

More than 30 "star men," or good conduct convicts, from Maldstone Prison, have arrived at the "prison hotel" of English convict establishments, as the Camp Hill prison on the Isle of Wight is familiarly called.

This is stated to be the first trial of a new development in the humanizing of the penal system.

Living in what are more like cottages than prison cells, the selected

men will work in the forest of Parkhurst, where each man is allowed to cultivate his own garden one day a week.

The convicts wear sailor caps, navy-blue jackets, with red arm stripes for good conduct, and breeches different from the ordinary prison clothing. They take their meals together and meet each evening in a smoking room, where newspapers, books, tobacco and cigarettes are allowed.

They can expend their earnings (awarded for good conduct) on luxuries purchasable at a canteen—a "dry" one, however.

The "holiday" will last about three weeks.

Northern Ontario Exports Increase

Exports of the products of Northern Ontario to United States for the first six months of the year showed an increase of approximately 45 per cent. over those for the same period of last year, according to statistics of the American consul at North Bay. The total value of exports for the period was \$24,937,570 in comparison with \$17,292,808. Gold bullion exports show an increase of more than 190 per cent.; silver bullion of 30 per cent.; fath, 450 per cent.; and newsprint 40 per cent.

Relief from Asthma. Who can describe the complete relief from suffering which follows the use of Dr. J. D. Kellogg's Asthma Remedy? Who can express the feeling of joy that comes when its soft and gentle influence relieves the tightened, choking air tubes? It has made asthmatic affliction a thing of the past for thousands. It never fails. Good druggists have sold it for years.

More than 200,000 houses have been built in Great Britain since 1919.

SUFFERED WITH ECZEMA 3 YEARS

Itched and Burned So Could Not Sleep. Cuticura Healed.

"I suffered for three years with eczema which broke out on my limbs, and soon spread to my neck and forehead. It itched and burned so that it was most impossible to sleep at night, and every time I scratched it, it would bleed. The breaking out caused disfigurement. I began using Cuticura Soap and Ointment and after the first week I got relief. I continued the treatment and in about six months I was completely healed." (Signed) Mrs. George Pottle, R. F. D. 1, Box 22, Freedom, Me., Aug. 15, 1923. Use Cuticura for all toilet purposes.

Sample Box Free by Mail. Address Canadian Depot: "Cuticura, P. O. Box 2516, Montreal." Price, Soap 25c. Ointment 25c and the Salve 25c. Try our new Shaving Stick.

W. N. U. 1539

The Power of Advertising

Found To Be An Economic Force Of The First Order

Our forefathers talked about supply and demand as if there was a natural and perfect adjustment between the two. The modern business man has discovered the demand must often be created, and that advertising is the one essential element in its creation. Advertising is thus not merely an adjunct or an equipment; it is an economic force of the first order, and the advertising expert occupies a place in the hierarchy of industry and commerce not less important than that of the elements which the older economists alone delighted to notice. Advertising is no longer a matter of private interest. It is one of national and international importance.—The London Evening Standard.

TOO MANY HOME CARES

One Reason Why So Many Women Are Weak and Run-Down

The work of the woman in the home makes greater demands on her vitality than men realize, and there is always something more to do. No wonder women's backs ache, and their nerves are worn out. No wonder why they get depressed and irritable, suffer from headaches, and always feel out of sorts. But of course all women are not like that. What is the difference?

A woman with plenty of healthy red blood in her veins finds work in the home easy; her vitality is at par. This points the way to health in women who feel run-down and depressed. Make new rich blood. You can do it with Dr. Williams' Pink Pills. These pills have the marvellous property of building up the blood and toning up the nerves. That is proved by the case of Mrs. E. Eppinger, Scott Street, Vancouver, B.C., who says:—"Dr. Williams' Pink Pills brought back my health and strength and restored my nerves to normal condition after other medicines had failed. It was after the birth of my second child that I became so anaemic and nervous that I thought I would lose my mind as well as my strength. I tried several medicines, but got no relief until I was advised to try Dr. Williams' Pink Pills. After using a few boxes of these I could see a change. I felt stronger; my appetite was better, I slept better, and my nerves were stronger. I continued the use of the pills for some time, and again found myself a well woman, and I can sincerely say that my health has since been the best. I can cheerfully recommend the pills to all weak, run-down women."

You can get these pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Discovering the Arctic

Great Mistake to Regard Data as Valueless Says J. D. Craig

The leader of an expedition sent to the islands in the Arctic by the Canadian Government, J. D. Craig, D.L.S., thinks that it is a great mistake to regard these as valueless. The data obtained warrants, he holds, the belief "that some day possibly in the not too far distant future, our little known far northern districts will prove to be more than merely a source of interest to the explorer, the big game hunter and the trader." The example of Alaska, with all the development that is going on there, is cited by Mr. Craig for the purpose of warning Canadians against too lightly assuming that the country lying towards the Arctic and the islands in that ocean are so much frozen waste.—From the Edmonton Bulletin.

Its Quality Sells It.—The fact that so many thousands of intelligent people continue to use Dr. Thomas' Electric Oil speaks volumes for its healing efficiency. Ever since it was first introduced it has grown steadily in public favor, owing entirely to its manifold usefulness in relieving and healing sickness. As a specific for cuts, burns, scalds and the various inflammatory pains its record is beyond reproach.

New Lumber Company in B.C.

The Skeena Lumber Company has been registered with capital of \$500,000 to take over the Kleanza Company, Ltd., lumber and mining operators at Usk. The new company is financed by Minneapolis capital and has power to establish a pulp and paper mill.

All mothers can put away anxiety regarding their suffering children when they have Mother Graves' Worm Exterminator to give relief. Its effects are sure and lasting.

Jupiter is nearer the sun by more than 40,000,000 miles in one part of its orbit than in the opposite part.

Minard's Liniment Relieves Pain

TANLAC MEETS TEST FOR OVER 3 YEARS

"The more I know about Tanlac the more I feel like praising it," says Mrs. Samuel Shelly, 56 Wood St., Toronto, Ont., Canada. "I always take Tanlac when I begin to feel run-down and it has met my health needs for the past three years.

"For years before I learned of Tanlac I was in such an awful run-down condition that at times I would get so weak and nervous I couldn't do my house work. I was down to almost a skeleton and still losing weight all the time. Headaches nearly drove me

mad and I had a sickly, sallow complexion.

"Tanlac has increased my weight 14 pounds, and has given me a wonderful appetite. My nerves are steady. I sleep well and have health and strength that makes life a pleasure."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

Tanlac Vegetable Pills for Constipation; made and recommended by the manufacturers of Tanlac.

Thousands In Wembley Pageant

Twenty-Five Thousand Wheat Sheaves From Canada Used

The opening of the British Empire Pageant in the Stadium at the British Empire Exhibition at Wembley, fixed for July 21, was postponed for a few days owing to insufficient rehearsal.

The pageant told the story of the British Empire in a series of dramatic episodes.

Fifteen thousand people took part in the spectacle. Its magnitude may be gauged by the fact that the following were among the requirements:

5,000 wigs.

15,000 costumes, for which 25 miles of cloth were used.

10,000 square yards of canvas seen-

ery.

Artificial lake containing 237,000 gallons of water.

Largest carpet in the world, covering half the Stadium.

Five miles of steel wire for alterations in the arena.

Two and a half tons of nails.

200 tons of timber.

Full-sized cathedral front.

Ships and houses, full sizes.

25,000 sheaves of wheat from Can-

ada.

In one scene 1,000 white doves were employed.

For Sore Feet—Minard's Liniment

Zanzibar, an Island off the east coast of Africa, was received by the British from Germany in exchange for Heligoland.

Attacked By Eagle

Fourteen-Year-Old Boy Lifted Five Feet By Huge Bird

To be attacked by a big bald-headed eagle, picked up and carried into the air five feet, then dropped when his clothing gave way, was the experience of Fred Cunningham, aged 14, weighing 97 pounds, on a golf course near Chatham, Ont. The bird, which was killed later, measured eight feet from tip to tip of wings. Young Cunningham was severely scratched and clawed while fighting the bird, which finally became enmeshed in a wire fence.

Miller's Worm Powders were devised to promptly relieve children who suffer from the ravages of worms. It is a simple preparation to destroy stomachic and intestinal worms without shock or injury to the most sensitive system. They act thoroughly and painlessly, and though in some cases they may cause vomiting, that is an indication of their powerful action and not of any nauseating property.

To Maintain Empire Fair

The British Empire Exhibition will be open again next year at Wembley, according to the parliamentary correspondent of The Daily Telegraph, who states he has learned of this on the highest authority.

MURINE FOR YOUR EYES
Wholesome Cleansing Refreshing

Mustard is valuable in the diet

Did you know that mustard not only gives more zest and flavor to meats, but also stimulates your digestion? Because it aids assimilation it adds nourishment to foods.

but it must be Keen's

Cook with This Ware It Uses Less Fuel

Save money by using SMP Enamelled Ware cooking vessels. They use less fuel. To satisfy yourself try this convincing test in your kitchen. Take an SMP Enamelled Sauce Pan and one of equal size made of aluminum, tin or other metal. Into each pour two quarts of cold water. Place each sauce pan over the fire. The water in the SMP Enamelled Sauce Pan will be boiling merrily when the water in the other is just beginning to simmer. Save your money. Use

SMP Enamelled WARE

"A Face of Porcelain and a Heart of Steel"

Three finishes: Pearl Ware, two coats of pearl-grey enamel inside and out; Diamond Ware, three coats, light blue and white outside, white lining; Crystal Ware, three coats, pure white inside and out, with Royal Blue edging.

SNOWDEN WARNS BRITAIN AGAINST TRADE MENACE

London.—While the echoes of the applause raised by the successful conclusion of the London conference on the experts' reparations plan still reverberate throughout Europe, the stage is being set for a sinister epilogue, with Great Britain and France taking their old roles of economic rivals, fighting for commercial ascendancy.

If any doubt remained as to Great Britain's policy regarding the Ruhr, it faded when the Manchester Guardian published an interview with Phillip Snowden, Chancellor of the Exchequer, not only backing Mr. MacDonald in his protest over the prolongation of the French military venture in the Ruhr, but protesting against the proposed new commercial agreements between Germany and France. He warns British industrialists that France has designs upon the economic control of certain German industries, using political means to attain this object.

The proposed commercial agreement, Mr. Snowden declares, is one method by which the French industrialists, aided and abetted by their politicians, intend to advance their project.

"I warn British commercial interests, especially the textile and iron trades, to be alert in this matter," says Mr. Snowden. "The draft of the commercial agreement shows that to Great Britain this is a trade menace of the most serious character."

Believes U.S. Must Recognize Soviets

Third Party Evidence of Changing Thought Says Rakovsky

Moscow.—Discussing the influence of the United States and the Anglo-Russian agreement embodying general and commercial treaties, Christian Rakovsky, the Russian Charge D'Affaires at London, who signed the treaties, said:

"America is at present the most conservative capitalistic country. Under the mask of defending democratic principles, it protects the interests of the big American capitalists. America strives to place Europe under its economic guardianship, but Russia's social regime presents for the United States' capitalists the greatest obstacle in establishing their authority over the European and Asiatic continents."

In the opinion of M. Rakovsky, the United States will ultimately be compelled to recognize Soviet Russia, as, he contends there are signs of big changes in the international life of the United States. He cites the appearance of the "third party" as furnishing the best proof that "America has been forced out of the social equilibrium which hitherto has served as a guarantee of her conservatism."

Ottawa Knows Nothing Of Wainwright Oil

If Big Strike Were Made Department Would Be Advised

Toronto.—A special dispatch from Ottawa says:

"The Interior Department has not received any word from its officials in the district, confirming the claim that British Petroleum have struck a 500-barrel oil well at Wainwright, Alberta, in addition to the one opened last fall."

"Inquiry at the mines, Northwest Territories, and Dominion Lands branches failed to elicit any basis for the report. If such a big strike were made it is assumed that the department would be advised. It is known, however, that the company is boring."

Canadian Song Writer Dies
Guelph, Ont.—A cablegram has been received here telling of the death in London, Eng., of Mrs. Laura Lemon Heath, who was accounted one of Canada's greatest song writers. As Laura Lemon, she wrote a number of patriotic numbers, but apart from these her best selection was "My Ain Folk."

Laura Lemon was the daughter of the late Andrew Lemon, Q.C., of Guelph, and Winnipeg, and widow of William Heath, of Winnipeg.

No Demonstration As French Troops Depart

Offenbourg, Baden, Germany.—Popular rejoicing over the departure of the French occupational troops from here, Appenweir and a number of neighboring villages, finds mute expression in the Liberal display of the German republican colors, which are flying from almost every house and public building in the places affected by the troop movement. The evacuation proceeded in an orderly fashion, the French avoiding every display of ostentation which might prove offensive to the German citizens who also refrained from demonstrations which might have netted the departing forces. A large contingent of French civilians and their families followed in their wake.

Hudson's Bay Ship Safe

Caught in Arctic Ice Pack Is Drifting Toward Northwest

Ottawa.—Failure of the Hudson's Bay ship, Lady Kindersley, to get through to Herschel Island will necessitate postponement of the establishment of a radio station there.

An officer and two men of the Department of National Defense are at present stationed on Herschel Island and the schooner carries supplies and equipment for the erection of a radio station there, which will be one of a chain of stations proposed in Northern Canada for military and commercial purposes. Even if the Lady Kindersley succeeded in reaching the island shortly, it would be too late in the season to commence construction.

Besides carrying supplies for Herschel Island, the Lady Kindersley carries food supplies and equipment for the Mounted Police posts and settlements at the mouth of the Mackenzie River. It is expected that when clear of the ice the boat will proceed to these posts with the supplies.

The men station on Herschel Island, it is stated, will not return with the boat, but will come out overland when winter sets in.

Vancouver.—The Lady Kindersley, believed to have been abandoned in the Arctic Ocean, is still safe and sound, though caught in an ice-pack, and, with her crew on board, is drifting toward the northwest and possible escape from the ice, according to a wireless message received from the ship by C. H. French, district manager for the Hudson's Bay Company.

Trying To Blaze Trail To the Coast

Detroit Autoists Piloting Car Across Prairies to Vancouver

Winnipeg.—A. F. Bement, Vice-President and Secretary of the Lincoln Highway Association, and H. E. Evans, both of Detroit, are seeking the honor of being the first tourists to pilot an automobile across the prairies to the Pacific coast.

If successful in their undertaking the trail blazers will be rewarded with a gold medal offered by the Canadian Highway Association. This prize has been waiting to be claimed for several years, and although several attempts have been made to negotiate the distance, none have been successful to date.

Quake Kills Forty-One

London.—An earthquake, near Osh, in the province of Semirechensk, Russian Turkestan, has caused the death of 41 persons in three villages and rendered 8,000 homeless, says a dispatch from Allahabad, India. More than 4,000 houses were destroyed.

B.C. Forest Fire Damage

Prince Rupert, B.C.—Forest fires have burned over three square miles near Alice Arm, destroying one of the finest stands of timber in the district. The outbreak was reported under control. Every available man has been fighting the blaze for several days.

Two Fire Victims

Winnipeg.—Trapped in the loft of a burning stable at their farm home near this city, Oliver and Lancelot McGill, aged three and four years, respectively, were burned to death. The origin of the fire is unknown.

Australia's first factory for the production of tennis rackets has been opened at Melbourne.

Gave Interesting Address

PROF. R. M. McIVER

of the University of Toronto, who delivered an interesting address on civilization and population at the British Association convention.

Prince Will Avoid Public Functions

Appreciated Privacy Attending Visit To Canada Last Year

The Prince is anxious to reach his ranch at the earliest possible moment and his stay on Long Island, where he will witness the international polo matches between teams representing Great Britain and the United States, will positively be his only stop on his way to Alberta. What he may do on the return journey is as yet undecided, although it is certain he will avoid any public functions. Perhaps the Prince will stop over at Jasper Park, Alberta, and during the time he is holidaying at his ranch he will likely spend a weekend at Banff.

The Canadian Press has authority for stating that the Prince of Wales and his suite appreciated and were extremely gratified by the privacy which attended the visit of His Royal Highness to Canada last year, and the Prince is looking forward to similar privacy on his forthcoming visit.

"The Prince's ranch is a real retreat for him, and everybody he met, both in the vicinity of the ranch and at Banff, were most kind and considerate of him," declared the authorities.

Subduing Scarlet Fever

St. John, N.B.—The opinion that within one year an anti-toxin for scarlet fever would be perfected and standardized, and that that disease would be as subject to control as typhoid fever, was submitted by Dr. H. B. C. Cushing, of Montreal, before the New Brunswick Medical Society here.

Perilous Trans-Atlantic Voyage

New York.—With Gibraltar as his destination, Dimitrios Sigeoklis, a Cretan seaman, has embarked upon a perilous trans-Atlantic voyage in a 22-foot sail boat. His only motive in making his trip is to experience the thrill of achievement, he said.

Montreal.—According to La Presse, French language newspaper of this city, Rev. Adelard Delorme, twice tried for the alleged murder of his half-brother, Raoul, will come up for his third trial at the September sessions of the Court of King's Bench here. The paper says that R. L. Calder, K.C., crown prosecutor, affirms this, and that the presiding judge at the trial will be Mr. Justice Demers, of the Superior Court. It adds that Delorme will be tried again in spite of the fact that he has recently been examined by alienists. The King's Bench will open September 10.

Africa Will Not Exhibit Next Year

London.—Commenting on a report from Cape Town that the Government of South Africa had decided not to continue its exhibits at Wembley next year if the British Empire Exhibition is open again in 1925, a South African authority in London says this is probably due to the fact that the South African Government is hard up and cannot afford to spend the money that would be required for a second year of the exhibition. South Africa not being in as good financial position as either Canada or Australia.

Manufacturers Now Appeal To Board

Ask For Removal of Discrimination Due to Crows' Nest Rates

Toronto.—Application will be made by the Canadian Manufacturers' Association to the Board of Railway Commissioners for the removal of the undue discrimination which, it is claimed, is created by the establishment of reduced rates between certain points by the Canadian Pacific Railway and the Canadian National Railway.

The rate complained of became effective on July 7, when legislation authorizing the Board of Railway Commissioners to increase rates above the maximum set by the Crows' Nest Pass Act expired. Tariffs were issued by the C.P.R. and C.N.R. at the same time, applying the new rates, however, only from those points which were common to the C.P.R. and C.N.R. as published in the C.P.R. tariff. The situation created by the new tariffs, it is stated, has caused numerous complaints from all parts of Canada against the disturbances and discriminations of rate adjustments which will work considerable hardships against both shippers and receivers.

Will Have Third Trial

Rev. Adelard Delorme to Appear at September Sessions

Montreal.—According to La Presse, French language newspaper of this city, Rev. Adelard Delorme, twice tried for the alleged murder of his half-brother, Raoul, will come up for his third trial at the September sessions of the Court of King's Bench here. The paper says that R. L. Calder, K.C., crown prosecutor, affirms this, and that the presiding judge at the trial will be Mr. Justice Demers, of the Superior Court. It adds that Delorme will be tried again in spite of the fact that he has recently been examined by alienists. The King's Bench will open September 10.

Mars Under Observation

Washington.—Phobos and Demos, satellites of the planet Mars will be under observation by the naval observatory here during the present month, when Mars will be closer to the earth than it has been for several years.

GERMANY MAY PLACE A HEAVY TAX ON WHEAT

Winnipeg.—A report was received from Europe by the export branch of the Winnipeg grain trade, and corroborated in other official quarters, that the German Government had expressed its intention of introducing in the Reichstag bill providing for the placing of a heavy import duty on wheat and flour.

The particulars received indicate that the duty to be imposed will be equivalent to 35 cents a bushel on wheat and 50 cents per barrel on flour.

Germany, it is learned, has a very excellent potato crop this year, and the purpose of the import duty on wheat and flour is to make the people consume potatoes and potato flour, and other home products, as they were compelled to do during the war years. Further, it is explained this action has been taken to cut down the importation of foreign foodstuffs to the minimum, and, at the same time, give encouragement to their own farmers in an effort to increase acreage and production.

A New York exporter, when queried respecting this new development in the bread grain situation of the world, stated that it would undoubtedly have a bearish effect on prices. The import, he declared, would in all probability cut down Germany's importations by from fifty to seventy-five million bushels during the next 12 months.

Had Subterranean Farm

Montreal Signor Kept Pigs, Goats and Chickens In His Cellar

Montreal.—Signor Giuseppe Mauro, Neapolitan landlord of an east end house in this city, is also the proprietor of a unique subterranean farm.

Inventory of the furred and feathered inhabitants of the farmyard taken by Fire Commissioner Ritchie revealed the fact that the original population comprised three pigs, two goats, about forty chickens, all of which were stabled in the cellar by a large barrel, a pile of coal and a stack of wood.

Over the farmyard live Giuseppe and his family, his wife and their nine children, the husband of one of the girls and a newly arrived granddaughter.

These details were obtained at the enquiry into the fire which broke out in the Mauro household on August 16. The only casualties in the blaze were two goats, which succumbed to smoke.

To Consult Premiers About H.B. Road Plan

Delegation Will Get Opinion on West Finishing Railway

Winnipeg.—A suggestion made some time ago by a former member of the Federal Cabinet that the Governments of the prairie provinces should take over and operate the Hudson's Bay Railway, has been discussed with Premier Bracken, of Manitoba, and members of his cabinet by a delegation from the "On-to-the-Bay" Association, but no definite plan was decided upon. The plan would have to be acceptable to both the Federal and Provincial Governments, and it is stated that the views of the Saskatchewan and Alberta Premiers will be sought shortly. A delegation from the association's executive will interview the western premiers on the subject.

Jewel Robbery In Boston

Loss In Daylight Theft From Diamond Merchants Is \$150,000

Boston.—Diamonds and jewelry valued at about \$150,000 were stolen by four men who held up the clerks in the store of Carl S. Skinner, diamond merchant here. One man remained in the automobile, two covered the three clerks with revolvers, while the fourth picked up the jewelry cases which had just been removed from the safe.

The store had just opened for the day and no customers were present. The robbery was accomplished in less than five minutes. The robbers then jumped in their machine and drove off through the cross streets of the southend. A policeman who gave chase in another car lost them in the maze of streets.

ALL ON THEIR OWN TO CANADA

These three little children, named George Reid (9), William Reid (7) and Nan Reid (5), travelled from Glasgow to Canada on their own on the Canadian Pacific liner "Marioch." They sailed from Greenock and joined their daddy in Quebec.

R. O. P. Announcement

By Mr. H. Erb.

We wish to announce to the public that we have entered our herd of Holstein cows in the Canadian Record of Performance test, for the purpose of establishing confidence in the records which some of these cows have been making under ordinary practical farming conditions. We believe we have as good pure bred Holstein stock as can be found in Canada representing close line breeding of the best blood lines in the breed, and to confirm our confidence and belief in this stock we wish to pass on to the public some of the comments made by the first official R. O. P. tester testing this herd.

He stated that we have females as true to type as any he had ever seen, a foundation from which we could fine breed a herd as good as any in the breed, he further stated that he did not know where to go to get any better. He said there were no better in A. C. Hardy's herd, who is considered the leading Holstein breeder in Canada, from which herd the Alberta government selected a bull for which they paid thirty thousand dollars. We wish to add here that we have the same blood in our stock. When asked where to improve he asked where could we improve except in feeding and developing? When asked his opinion about Re Feh and the sons and daughters of D. Kol Plus Segis Dixie, he commented: "They sell for thousands of dollars but you have better stuff right here, fine breed it and raise your own bulls."

He claimed that bulls from herd of this type and breeding are sure to give better satisfaction to the ordinary practical breeder than bulls from herds of big breeders with great forced records behind them.

These comments are worth acceptance and appreciation, coming from John Marshall of the R. O. P. testing staff who made the first official test in the Didsbury district on the premises of H. Erb. August 14th to 16th. He has twenty years experience in testing work and has R. O. P. tested nearly every herd in Canada under R. O. P. test and has several times assisted in picking and fitting the Canadian Holstein Exhibits for the International Stock Show at Chicago.

This foundation herd should add a great deal to the future prosperity of the entire Didsbury district as breeders are assured of being able in the future to procure right in their own district the very best in foundation breeding stock. Bulls from this herd deserve a place as herd sires in the very best herds in the province and we intend to continue the R. O. P. test to back up our claims of quality and merit.

We have a record of 14,280 lbs milk and 483 lbs. butter fat, for a junior three year old, freshening in 12 months and 19 days, made under ordinary farm conditions without even a silo. This cow is prospective of making 600 lbs. of butter fat per year when fully matured. We have two year old heifers milking, prospective when matured of making close to 1000 lbs. of butter fat per year under ordinary farm conditions, some of these testing over 4 per cent. The R. O. P. test will actually show their future record of performance.

We are offering a few registered Holstein cows for sale due to freshen in October.

AGNEW—FINLAY

The home of Mr. and Mrs. Albert Vogel, Carstairs was the scene of another pretty wedding on Wednesday morning, August 20th, when Miss Annie Finlay became the bride of Percy Earle Agnew, Penticton, B. C., Rev. W. B. Dennis, Didsbury, officiating.

The bride looked pretty in a gown of white silk crepe-de-chene with seed pearl trimmings wearing the bridal veil and wreath of orange blossoms, she carried a magnificent shower bouquet of Ophelia roses, and was given away by her brother-in-law Albert Vogel.

Miss Ethel Klinck, Westcott, acted as bridesmaid, wearing grey silk crepe-de-chene with tiny pink rosebud trimmings and carried a large bouquet of pink carnations.

Alex. Robertson, Jr., Westcott, supported the groom. Little Joyce Finlay, Edmonton, and Little Ruth Finlay, Didsbury, nieces of the bride, made dainty flower girls in frocks of white voile with lace and ribbon trimmings and carrying baskets of pink sweet peas. The bridal party took their places under an archway specially arranged for the occasion, to the strains of the wedding march played by the brides sisters, Mrs. J. Hughes and Mrs. Albert Vogel.

The groom's gift to the bride was a handsome French Ivory dressing set; to the bridesmaid a pearl necklace, and to the best man a maple leaf stick pin set with pearls. Before the luncheon was served Alex. Robertson Jr. sang several selections which were very much enjoyed by those present.

The table was artistically decorated in mauve and white festoons and flowers, the three tier wedding cake occupying the centre. The rooms were tastefully decorated with sweet peas, roses and other flowers.

The bride and groom were the recipients of many handsome and useful gifts.

Amid showers of confetti Mr. and Mrs. Agnew left to take the afternoon train for Edmonton, the bride travelling in a navy blue boîte twill suit, grey velour hat and slippers to match. After a short visit there they will leave for their future home in Penticton, B. C., stopping on the way at Banff and Lake Louise.

Wanted, For Sale Ads.

FOR SALE:—Ford touring car in good condition. Hen house 12x14. Bottom and four sides to tent 10x12. Two large screen doors. Child's crib and mattress. Large water barrel, 200 gal. 2c33

Bears, Baboons, Bees, Bicycles and Bullion.

Above, live chickens are a regular line, and, right, bears are also cared for at times. Left, this parrot was in the hands of the Dominion Express Company over a 2,500 mile journey. On the truck behind it is a shipment of bees. Inset is a case of putting the cart under the horse for shipment. Below, baby chicks are handled by thousands daily.

There arrived in Toronto recently, after travelling thousands of miles by rail, a stud pony. Jim, or whatever his name was, had a compartment to himself, a crate of the latest description. He arrived in the best of condition, after being fed and watered en route by the messengers of the Dominion Express Company.

Unusual shipments like this, however, are "all in the day's work" for the express companies. They will take a treasured jewel or a pet elephant with equal pleasure. If you want to ship home the money to pay off the mortgage on the old farm, or send father a couple of cows to keep up his milk shipments, the express companies will look after it for you. Strange consignments pass through the Express Company's doors, and sometimes strange sounds issue from inanimate-looking packing cases.

Take the case of the bear cub used at the recent Rotarian Convention in Toronto. The Dominion Express Company was called on to handle this bear for transportation to Auckland, New Zealand. Two or three times daily between Toronto and Vancouver this husky specimen of the "boohoo" tribe was fed biscuits and milk. At Vancouver he was fed and taken care of until such time as the boat for Australia departed, and arrangements were made to see that the same attention was given until the bear reached its destination. They say that the poor little bear cried when the time came for it to leave the hands of the express company, so well had it been treated.

In case of live animals travelling in the company's cars no excuses are accepted for failure to give them attention. Officials tell a story, in fact, of a messenger some years ago who, in his anxiety to escape a call to the carpet for failure to make correct reports, carefully noted "Fed and watered O.K." on a way-bill covering one crated bicycle.

Animals somewhat more lifelike than the subject of the expressman's mistake do often travel, however. For instance, 20,601 pet dogs went travelling in care of the Dominion Express Company last year. There are not many kinds of beast, wild or domesticated, that haven't come in the company's experi-

CANADIAN SENATORS EN ROUTE TO SOUTH AFRICA

To review conditions generally and also with a view to increasing Canadian Trade relations with South Africa, these five Canadian Senators are now on their way to Cape Town. 4 Choice heifer calves and 2 bull calves, also selling the herd bull.

MR. A. CHAMBERLAIN'S CONSIGNMENT

A first prize bull calf, also Grand Champion at Didsbury Fair.

King Dixie, first prize yearling, born July 4th 1923. One of the best bred bulls in Alberta, being sired by a son of DeKol Plus Segis

Dixie, the cow that holds the world's record for butter in two years, his great grand dam being the famous May Ecko Sylvia.

Young bull calf. A grandson of DeKol Plus Segis Dixie, his dam, a cow weighing over 1800 lbs., made a butter record of 25 lbs. at 3 years old; his dam, a half sister of May Ecko Sylvia and grand dam a cow that milked over 100 lbs. per day and gave 34 lbs. butter in 7 days.

Champion Alcaria Veeman the herd sire, now owned by Mr. M. Weber and J. E. Liesemer, is a grandson of that greatest of all cows, May Ecko Sylvia.

By securing some of these cattle in calf to this sire or some of these young heifers and having them bred to Champion you will be getting some of the best blood lines in Canada for foundation.

These cattle have been consigned to Mr. Gordon Manhard of East

ern Canada fame as a Holstein herd builder and record maker, and he will be prepared to give any information as to their extended pedigrees both before and on date of sale.

Sale at 1 o'clock sharp.

Terms Cash.

Here and There

A remarkable report comes from Brockville, Ont. Harry Church, a farmer residing five miles north of that town, is the owner of a Holstein cow which has just given birth to three calves. All are alive and thriving

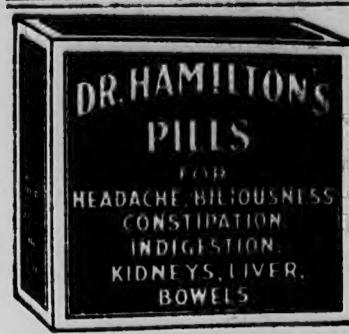

On July 11, Her Majesty the Queen of Spain and her two daughters visited the Canadian Pacific Railway's pavilion at the British Empire Exhibition. Her Majesty evinced deep interest in all she saw and declared the exhibit to be "perfectly lovely."

Although the present season of ocean travel has reached the period usually associated with a falling off in the number of passengers, steamship companies report that little decrease is apparent this year and that the total volume of passenger traffic in 1924 will probably be the largest of any year since the war.

Reports from England state that it has been universally conceded that Canada's pavilion was in the best condition when the King opened the British Empire Exhibition at Wembley on April 23rd. "It was the Canadian building," the reports said, "spick and span and complete to the last nail that led all others in the race to the finish in time for to-day's official opening."

Over 3,000 settlers left Liverpool for Canada on April 24th. Thirteen hundred of these sailed on the Canadian Pacific liner "Montcalm," including a party of 200 skilled workers from Manchester, 38 belonging to engineering trades, 40 to building trades and 42 farm hands. Eighty skilled workers from Leeds and a party of engineers from Barrow-in-Furness were also on board.

A total of 40,000,000 salmon trout eggs has been collected during the last season by the Department of Marine and Fisheries in Lake Huron, Georgian Bay and Lake Superior. The total number obtained compares favorably with the average collections of recent years and is sufficient to fill all the hatcheries on the Great Lakes engaged in the propagation of salmon trout.

Toronto)

(Continued)

"He came here shortly before noon," explained the sky-pilot. "Said the scarlet special had brought him a summons to Ottawa that could not be denied. He means to ask you people to take charge until his relief arrived. His years of pioneer service in the North had been rewarded at last, he told us, and he was to be made a high official of the Arctic at the Ottawa headquarters. Naturally, we rejoiced with him."

"The nerve of the scamp!" exclaimed the sergeant. "The only word the special brought was a warrant for his arrest. He has been robbing the company for years and they've just found him out—got the proof. I came to arrest him. He must have surmised that the coming of the special meant only one thing and decided to make his get-away. And howling sun-dogs, this warrant I hold is a secret one! No general alarm has been sent out. Can I see Miss O'Malley—perhaps he's told her something of his plans? In the interests of justice, after she's seen the warrant, I'm sure she'll not protect him, much as she dislikes me."

The missionary seemed stunned. He bent over in his chair and cupped his hands over his eyes in an attitude of prayer.

"Good Lord, forgive us for our sins of omission," said our heard him murmur. "We are but mortal and the flesh of all mortals is weak. How were we to know—"

"Here, here!" interrupted the sergeant impatiently, although he had respect enough for prayer. "It's not your fault that Karmack got away or that you let him use Mission House in his courtship. You good folks couldn't have known he had done anything wrong. Send for Miss O'Malley at once. I've no time to lose."

Luke Morrow forgot his supplications for pardon and sprang to his feet. "No time to lose. You're right. That scoundrel was pernicious and we were weak. Karmack took Moira with him, offering her safe conduct to her friends and home in British Columbia. We'll never forgive ourselves for—"

But Sergeant Scarlet was gone in too great a hurry to close the door behind him.

CHAPTER XII.

Living Targets

Like a Windigo boodie of the sub-Arctic on the trail of a craven Cree, Sergeant Seymour pushed through the white silence in pursuit of his fugitive. If the capture of Harry Karmack, embezzler, spurred him officially, the saving of Moira O'Malley from the fate

WOMEN FROM
FORTY TO FIFTY

Will Be Interested in Mrs. Thompson's Recovery by Use of Lydia E. Pinkham's Vegetable Compound

Winnipeg, Man.—"Lydia E. Pinkham's Vegetable Compound has done me good in every way. I was very weak and run-down and had certain troubles that women of my age are likely to have. I did not like to go to the doctor so I took the Vegetable Compound and am still taking it right along. I recommend it to my friends and to any one I know who is not feeling well."

Mrs. THOMPSON, 303 Lizzie St., Winnipeg, Man.

When women who are between the ages of forty-five and fifty-five are beset with such annoying symptoms as nervousness, irritability, melancholia and heat flashes, which produce headaches, dizziness, or a sense of suffocation, they should take Lydia E. Pinkham's Vegetable Compound. It is especially adapted to help women through this crisis. It is prepared from roots and herbs and contains no harmful drugs or narcotics.

This famous remedy, the medicinal ingredients of which are derived from roots and herbs, has for forty years proved its value in such cases. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

Women who suffer should write to Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for a free copy of Lydia E. Pinkham's Private Text-Book upon "Aliments Peculiar to Women."

W. N. U. 1539

that seemed in store for her lent wings to his snow-shoes. To himself he did not deny the fact that the personal interest was the most potent. There would be weeks and weeks, if required, to run down the dishonest trader. Didn't the Royal Mounted always get their man? But there were only hours, he sincerely believed, in which to spare the most beautiful feminine creature he had ever seen a lifetime of humiliation and grief.

This was no night for travel. All the rules of Northern trails forbade it. With the spirit thermometer down to sixty-five below, he should have been snug in camp in some snow bank, wrapped in rabbit-skin robes or encased in a sleeping bag, with his maimates snuggled around him. The spirit within that enabled him to defy the inexorable grip of the frost was the same that had not permitted him to delay pursuit's start an hour.

Frankly, he would not have gone out that night after Karmack had the scowl been escaping alone. Considering the factor's passenger, however, nothing could have kept him at the Armistice detachment post.

There action had been swift once he had the full news from Luke Morrow. At quarters, he had turned over the post to Corporal Le Blanc. He was to keep the Arctic company's trade-room and furs under seal; to do no trading except that which the welfare of visiting Indians and Eskimos demanded. Hardship might be worked if the trusting natives came in to exchange their furs for supplies and found no mart. The two Eskimo murderers were to remain under open arrest unless they displayed signs of wanderlust after his departure.

La Mart was to take no chances with his injured leg, the corporal to make such patrols as were absolutely necessary. Thus, like a good commander, he prepared for the all-too many eventualities of winter travel.

Morrow had followed him to police quarters almost at once with an offer of the Mission House maimates for the stern chase—stern in more than one sense of the word. Knowing that both the police teams were worn out—the one of the scarlet special and the other of mercy's errand—Seymour had accepted the mission's team, although he preferred always to drive his own dogs when they were in the least fit.

From Morrow, he had details of Karmack's morning visit which had resulted in Moira's unfortunate decision to attempt to go "Outside" under his escort. Karmack had said he meant to take the shortest course to the Mackenzie on the frozen surface of which he expected to find a more or less traveled trail. He would be delighted to have Moira's company. She

could drive her own team and would find it easy to follow his own huskies. They would have the Arctic's interpreter, a famous musher, to break trail and keep them on the right track. It would be an express trip, he had declared, and she would find herself with her friends before she knew it.

"Emma and I tried to dissuade her from taking the chance," the missionary had told Seymour with tears in his voice, "but the temptation was too much for the girl. We assured her she would be welcome to spend the rest of the winter, but she wanted to depart the scene of the tragedy."

At the moment, Seymour had wondered how much her ill-founded disappointment in him had affected her decision. And this thought kept recurring to him now as he followed the double sled trails. It clinched his determination to overtake them at the earliest possible moment.

Fortunately there was no wind tonight and he had nothing to contend against but the bitterness of the cold. He was travelling "light" with caribou pemmican, hardtack and tea as the major contents of his grub sack. The mission dogs were running as if out for an exercise jaunt; but the air was too frigid to permit much riding for their driver. Often he had to hold them back that he might not become absolutely winded.

Already he had proved one lie in Karmack's statement to the girl and the missionary, as reported with undoubted truthfulness by the latter. The fugitive was not headed directly for the Mackenzie River, the natural highway "Outside." That would have taken him by the Wolf Lake trading and mission station. Even in the night, the sergeant recognized the ridge they were following and that there had been a sharp veering to the southwest. The course would bring them to the river far from any outpost and doubtless Karmack, if he got away, would continue to avoid all such on the way up river until certain he had out-distanced any pursuit.

The possibility that already the girl regretted her hasty decision to leave the Morrows occurred to him as a possible reason for Karmack's change of course. If she had threatened to give up the attempt upon reaching Wolf Lake, the factor, naturally, would give the other missionaries a wide berth.

But cheering as was the idea, he soon dismissed it. Moira O'Malley was not the sort to turn back on an endeavor, and it was improbable that there had been any alarming overtures from Karmack so early in the wild project. He was clever, was handsome Harry, and, by his own boast, experienced with women. He would wait until he had completely won her by the countless services that would crop up on a trip of this sort.

All the more reason, then, for Seymour to overtake and capture before they got beyond reach of return to Armistice. Again and again his goal of caribou hide snapped near the ears of his team. The panting animals flattened their bodies while he rode the sled in defiance of the frost.

Soon after break of day, belated in

this latitude and season, came his reward. In the course of the night's sled run he had worked out of the bare tundra country of the foreshore into a region spattered here and there with brush. Now he saw rising from one of the clumps ahead a spiral of smoke marking someone's breakfast fire.

No difficulty was there in guessing whose fire—not in the Great Barrens! Evidently, from the distance covered, Karmack had driven far into the night, but, none the less, did not mean to be deprived of an early start on the second day of his dash for freedom.

Seymour dragged the mission dogs to a halt a mile away from the fugitive's camp. When rival teams meet on the snows, they dash at each others' throats with a chorus of yowls and all the strength of their respective masters is required to keep them apart. The sergeant expected to be engaged otherwise than clubbing maimates when he got to that break-fast fire.

Accordingly, he untraced the team and chained them to the sled in such a way that any attempt to move that vehicle on the part of the animals leashed to one side would immediately meet with resistance of the dogs on the other side. Such an anchorage he had tried before and proved effective; in fact, it is about the only one possible in the open snow-fields.

Tossing each of the seven in the team a frozen fish, he removed his parkie, exposing to ready grasp the revolver at his hip. From its deer-hide case, he unlimbered his rifle as a precaution against being "potted" in case his approach was discovered at too great a distance for small-arm accuracy. Then he moved swiftly forward, the tails of his "webs" leaving a wake of flying snow.

Evidently, the three of the flight party were at breakfast, for he bore down on the temporary camp without alarm. Soon he was near enough to hear the dogs of their two teams snarling over the morning meal. Noting that they were tethered between him and his objective, he circled for a safer approach.

Almost was he upon the camp when he saw Karmack departing in the direction of the dogs. Easily could he have picked off the accused embezzler with his rifle. But—

"Never fire first!"

With the real slogan of the Royal Mounted he admonished himself under his breath.

Nearer over the crunching snow he crept on that clumsy-looking but most effective footgear which man may have adopted from the snow-shoe rabbit. Now he could make out the front of a pup tent, doubtless thrown up for the protection of the beauteous of the party, Koplock, the Arctic's Interpreter, could be seen packing utensils for the start. The girl was not in sight.

Two minutes more would have brought him into camp and everyone under cover of his rifle. Then, from out of the tent, came Moira, facing him!

He heard her cry out; could not determine whether from surprise at the unexpected appearance of a human stalking out of the white solitude or as a warning to her companions.

Of these, Karmack whirled at first alarm, but the native did not look up from his task. Evidently the factor recognized the unwelcome visitor, for he started back with a rush, drawing his automatic as he ran.

"Never fire first!" the voice of training whispered as the sergeant hurled himself toward his foe.

Karmack's pistol barked. A bullet whizzed past the policeman's ear, a

narrow miss but as good as a mile. Now came the King's turn. Upward to his shoulder swung the gun with which Seymour had won many a target match. In a second, it seemed, Karmack must bite the snow.

But the gun never was fired. Into direct range between the two men, Moira O'Malley had flung herself, a tall, fair-clad figure. The human target of the scoundrel momentarily was blanketed. What mattered it that the school girl of Ottawa was pointing an automatic as steadily as she had held it upon him in the trade room that time back in Armistice. Sergeant Scarlet could not fire upon an innocent woman.

He barely saw a whiff of smoke leave the mouth of her pistol, scarcely heard what seemed a double report, when a burning sensation along one temple and across the side of his scalp threw him backward to a fall on his side.

Was it possible that, by some involuntary pressure on the trigger, he had fired at Moira O'Malley? In the paralytic clutch of the moment he could not answer the heart-burning question.

(To be continued)

Why Starve Yourself?

"Improved" Foods Do Not Contain Vitamines Essential To Health

If your food consists of white bread, meat, vegetables boiled into a smooth pap, cooked fruit, manufactured jams and other sweets, you are starving your body of the vitols, vitamines or living principles essential to your health, which have been refined out or otherwise scientifically removed from all of the above articles of your diet.

You may go on living like this for a number of years, but, sooner or later, outraged Nature will impose the inevitable penalties.

Constipation is pronounced by many eminent authorities to be the universal complaint of the civilized world, and is caused by general vitamine starvation of the popular diet.

Apart from the facts that constipation is, without one exception, the forerunner of cancer and the colon is the breeding-ground of cancer, you should remember that ninety-five per centum of all the diseases of the civilized world originate with its present faulty diet, that by vitamine starvation day by day, steadily weakens your natural disease-resisting power.

All pills, purgatives and laxatives contain active irritants and are not only injurious and dangerous, but also, at best, only partially successful. Dr. Robert Bell, M.D., F.R.C.P.C., etc., the eminent English cancer authority, states the only safe remedy for constipation is the use of an enema, containing not less than one quart of plain water at blood heat, to insure the daily complete evacuation of the colon and prevent the blood absorption of poisons from the bowels. When your life is at stake, can you afford to neglect such a simple and inexpensive precaution?

The highly pild food chemists are responsible for more deaths than were exacted by the entire late war and, by their poisonous dyes, preservatives and scientific refinement of Nature's abundant provision continue to wage remorseless war upon helpless women and children who, besides their natural protectors, also become victims of the foodless food manufacturers.

For the preservation of your future health and that of your dear ones stop eating "Improved" foods, tinned goods of any sort and the white bread and white flour products that kill 400,000 little children under ten years of age every year in the United States (McCann).

Insist upon whole wheat bread, plenty of fresh uncooked fruit and vegetables. If you must cook your vegetables, steam them only and either drink the water or use it as

foundation for vegetable soup. You are entitled to enjoy every minute of your life from the cradle to the final rest, and if you have any doubt about what to eat in order to keep you in perfect health the writer will gladly and freely mail you his dietary treatment if you will write for it to Charles

CANCER

GREAT SUCCESS OF
CANTASSIUM TREATMENT

A well-known London Surgeon and recognized authority on Cancer has created worldwide interest in the discovery that Cancer is due to a deficiency of potassium "salts" in the body, which causes the cells to break down and become malignant.

In order that everyone may learn

The Real Cause of Cancer

a remarkable book has been specially written.

This book will be sent free to patients or anyone who is interested in the most successful method of fighting "THE CANCER SCOURGE."

The following is a list of the chapters:

1. The Limitations of Surgery.
2. Some Doctors Oppose Operation.
3. What Cancer Is.
4. Why the BODY CELLS BREAK DOWN.
5. Injurious Cooking Methods.
6. Common Errors in Diet.
7. Vital Elements of Food.
8. Medical Endorsements of Our Claim.
9. The Chief Minerals of the Body.
10. The Thyroid Gland.
11. Age and Lime.
12. Lime Begins to Accumulate.
13. Potassium Causes Lime Accretion.
14. Great Value of Potassium.
15. Parts of Body Linable to Cancer.
16. Parts Which Are Seldom Affected.
17. How a Doctor Can Help.
18. How to Avoid Cancer.
19. Arterial Sclerosis and Old Age.
20. Rheumatism, Gout and Kindred Complaints.

With this book are a number of interesting case-reports, proving the great value of "Cantassium Treatment" in various cases. The treatment is simple and inexpensive, and can be easily taken in one's own home. Apply for free book to Charles Walter, 51 Brunswick Ave., Toronto, Ontario, Canada.

Byron and the Abbey

Plea For Recognition of Genius of the Poet

We regret that the decision of the Dean of Westminster is against placing a memorial tablet to Byron in the Abbey. It is true that Byron was a man of bad life, but so were Charles II., Mary Queen of Scots, and many other persons who are commemorated in the Abbey. The essential consideration of the case is: Was Byron a great poet? Without question he was; and that is a universal, not a national, verdict. Therefore he should be commemorated in the Abbey. Surely there is a statute of limitations to be pleaded in such cases. His misdeeds are dead. His verse lives. Implore pacem. That is the password, and it should be repeated.—The Spectator (London).

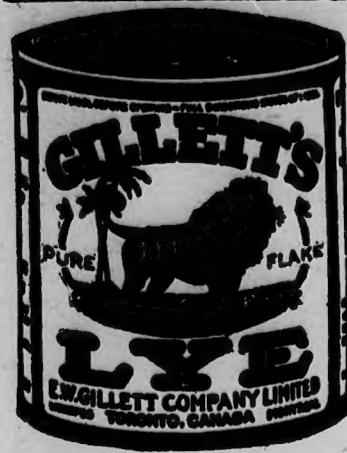

BABY'S OWN TABLETS
ALWAYS KEPT ON HAND

Mrs. David Gagne, St. Godfrey, Que., writes:—"I have used Baby's Own Tablets for my three little ones and have found them such an excellent medicine that I always keep them on hand and would strongly advise all other mothers to do the same thing." The Tablets are a mild but thorough laxative which quickly relieve constipation and indigestion; break up colds and simple fevers and promote that healthful refreshing sleep which makes the baby thrive. They are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Wilmans' Medicine Co., Brockville, Ont.

For a period of 1489 years ending in 1905, Japan had 244 earthquakes, more or less disastrous in character.

During the 21 years ending 1905, Japan had an average of 1,461 earthquakes a year, most of them slight.

Insect Bites!

B. C. Apples

Expected That There Will Be a Sixty Per Cent. Crop This Year

(By J. Alex Aikin)

Kelowna, B.C.—There is a decided opinion here that the apple crop will be a 60 per cent. crop, due largely to unfavorable weather conditions. There is no getting away from the fact that fruit growing in this valley can only be assured from year to year by irrigation, just as is the case in the States to the south. The fruit farms which have water this season are promised a very good yield, but otherwise the outlook is not bright.

There remains plenty of land along the hills below the water line, and in the valleys waiting to be taken up and used. The Chinamen are working some of the least desirable land and raising a lot of vegetables. Up to the present time there have been 90 cars of vegetables shipped out of the valley this season, and most of that product is from the Orientals land.

The drought this season gave invitation to grasshoppers and they are in plenty on some land. The provincial fruit branch has ready for use to all who will take it to their own land a preparation of bran and sawdust, with arsenic flavored with molasses and vanilla which proves that the hopper likes the rum smell and the fatal jag.

The stuff is effective and has saved many acres of tomatoes and small fruit and vegetables.

For sometime Jonathan growers were troubled with early decay in that variety. Careful inquiry and research on the part of the Federal Fruit Branch led to the sure knowledge that the trouble had been caused by late picking after the fruit had passed picking maturity. It was found beyond question that where the Jonathans were picked early they had the keeping quality desired and proved good right through September to December. Therefore, it will in future be safe for Jonathan lovers to buy their favorite apple.

The growers are seeing it is advisable to concentrate on a limited number of varieties in order that they may be able to supply demand in carlots as ordered. Formerly growers set out a wide number of varieties not foreseeing the situation as it has since developed.

Along with this effort at concentration there will be attention paid to giving out information on the season for the ten varieties which have been adopted. And while there is the standing doctors assurance that it is always time to eat an apple, the apple men will tell you that it is just as much of a mistake to eat an apple at the wrong time or season as it is to try to masticate an unripe peach.

The ten varieties and the time when they are at their best follow: The Early Duchess, Wealthy, Sept. to Nov.; McIntosh, Oct. to Jan.; Jonathan, Sept. to Dec.; Delicious, Nov. to Jan.; Grimes Golden, Nov. to Jan.; Winesap, Nov. to Dec.; Spitzenburg, Nov. to Jan.; Yellow Newtons, Jan. to April; Winesap Jan. to April. The Canadian Pacific Railway gives exclusive service to the Okanagan Valley and is quite equal to all demands for traffic. During the past year two important concessions have been made to shippers. The first, and an important one, is that of protection of fruit against frost. This form of insurance enables the shipper to go right on using freight cars, so long as the weather is reasonably moderate, after which shipments have to be made in refrigerator cars. The other concession, not less valuable, is that cars of fruit by express may be opened for delivery twice enroute to final destination point. The effect of these arrangements is to facilitate movement of the crop promptly and hold down the cost of transportation, which in turn affects the consumers price.

The average net price received by growers for apples last season was about 40 cents per box, or some varieties as high as 70 cents was paid the growers, but plenty of apples did not bring more than 30 cents. The average cost for packing and shipping is found to be 70 cents, which includes administration charges. This question is being made the subject of a special inquiry by Major Duncan for the Federal Department of Labor.

Bees' wings beat the air at the rate of 190 strokes a second.

WORLD HAPPENINGS BRIEFLY TOLD

Prof. J. C. Flugel, of University College, London, England, has compiled a chart of human experiences.

Percy Sims, a Canadian engineer, has been appointed assistant chief mechanical engineer of the New Zealand Government Railways.

The importation of all cattle, sheep, pigs and goats into the Isle of Wight is prohibited owing to foot-and-mouth disease.

Viscount Grey of Falloden, former Secretary of State for Foreign Affairs in the Asquith Government, has retired from the Liberal leadership in the House of Lords for personal reasons.

Mrs. Emily Stanton Nelson, widow of Hon. Hugh Nelson, former Lieutenant-Governor of British Columbia, died at the Westminster Private Hotel, Toronto, where she had been staying.

According to official statistics just issued the value of the alcoholic beverages consumed in Norway in 1923 aggregated \$40,770,000. This is at the rate of about \$15 for each inhabitant.

Countess Gazycka, formerly Miss Eleanor Patterson, of Washington, D.C., America's most noted woman big game hunter, has gone on a private camping expedition into the Canadian Rockies.

A 13-year-old boy is one of the leaders of the Communist party at Gera, in Central Germany. His fluency of speech and commanding manner on the platform attracts large crowds to his meetings.

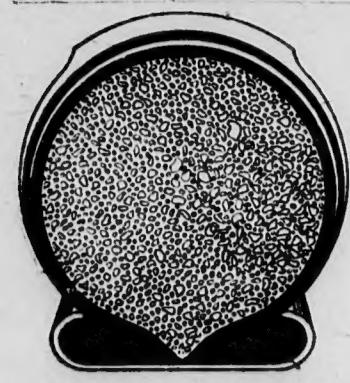

Prince Arthur of Connaught is spoken of as the next Viceroy of India, it was learned in London. Lord Reading, the present incumbent, will probably finish his term of office, twelve months of which have not expired.

The freight steamer Torham Van, from Toronto and other ports on the Great Lakes arrived at Vancouver, B.C., with a full cargo of Ontario manufactured goods. The vessel was two months on the voyage.

Palm and olive oils—nothing else—give

Nature's green color to Palmolive soap.

The simple, correct way

You cannot find a more effective beauty treatment. Because Palmolive Soap is blended of rare palm and olive oils—famous for mild but thorough cleansing qualities since the days of Cleopatra. And it is inexpensive. Enjoy it for the bath also.

But be sure you get Palmolive—which is never sold unwrapped. All dealers have it. Get some and follow this simple method for one week. Results will delight you, even in that short time.

Britain Building Up Forests

British Forestry Committee Has Already Started Tree Planting

The British Forestry Committee is planning a forest station development in a huge area of East Anglia with the idea of creating the largest forest in Great Britain. Tree planting has already begun.

The area under development is a vast sandy wasteland. The plan includes the erection of workers' holdings for one hundred families.

It is expected that the development will be profitable not only in the production of timber, but in the increased fertility of the surrounding land.

Corns, Warts, Bunions, Painlessly Removed

Don't limp any longer, don't suffer another hour from corns. The oldest remedy and the best, the one that for fifty years has proved a true success, will lift out your corns in a hurry. Putnam's Painless Corn and Wart Extractor is the one remedy to use. Refuse a substitute, 25c everywhere.

Settlers Interested in Irrigated Lands
Irrigated farm lands at Taber, in South Alberta, are attracting prospective settlers from the United States and Eastern Canada, and several land scouts have been sent to the vicinity by colonization organizations.

Stop the Cough—Coughing is caused by irritation in the respiratory passages and is the effort to dislodge obstructions that come from inflammation of the mucous membrane. Treatment with Dr. Thomas' Electric Oil will allay the inflammation and in consequence the cough will usually stop. Try it and you will be satisfied.

Donates Plane to Japan

SUNDAY SCHOOL LESSON

AUGUST 31

JESUS TALKS WITH A SAMARITAN WOMAN

Golden Text: God is a Spirit; and they that worship Him must worship in spirit and truth. John 4:24.

Lesson: John 3:3-42.

Devotional Reading: Psalm 25:1-7.

The Text Explained and Illumined

Living Water, verses 7-14. Most commonplace events are but milestones that mark our progress along the road we are travelling, yet some prove turning-points which send us in another direction: such a turning-point was the errand of a woman of Samaria to the village well for water—there she met Jesus. Jerusalem had not received its Lord, and he was on his way to "his own country" of Galilee, and was passing through Samaria. On nearing Sychar, Jesus, being wearied, sat down to rest on the curb of Jacob's Well, while his disciples (the five first called) went on to Sychar to buy food. As the woman approached Jesus asked her for a drink. In surprise, she exclaimed, "How is it that thou, being a Jew, askest of me, who am a Samaritan woman?" (for Jews have no dealings with Samaritans, the Evangelist explains). At this time either it was permissible to trade with the Samaritans (verse 8) or the disciples ignored the law against it, but no Jew would ask a favor of a Samaritan. The woman's reply is a light-hearted way of entering into conversation—tossing the ball back to the unknown Speaker—joined to some satisfaction that the circumstances enabled her to be saucy to a Jew. "What! a Jew can descend to be beholden for a drink to a Samaritan! And does he really expect to get it? Who could have believed it?" (Rainy).

Jesus' next word to the woman is full of yearning distress—if you knew what God's blessings are, and how freely he gives them, if you knew that he who speaks to you has it in his power to give them all, you would be the seeker then, and he would not refuse you, he would give you living water. "Living water" in the literal sense means good spring water, water from a living spring instead of eastern water.

Radio Set For Prince

Token of Appreciation From Radio Fans of America

When the Prince of Wales stepped aboard the Cunard liner Berengaria on August 23, for his trip overseas, he received the most magnificent radio set ever constructed in the United States. It was presented to him by W. Roy McCann, President of the Stromberg-Carlson Telephone Manufacturing Company, as a token of appreciation and goodwill from the radio fans of America. The set, which is a five-tube Neutrodyne, is mounted in a console of Adam Brown Mahogany with everything self-contained. All its metal parts are gold-plated. The set was delivered to the Berengaria and taken across the Atlantic aboard that ship on its eastward passage, so that presentation could be made immediately after the Prince boarded the liner in Southampton.

Minard's Liniment Heals Cuts

Helping the Starving Greek Refugees

Appeal Is Made To Western Canada To Lend Assistance To Worthy Cause

Western Canada is being appealed to, through The Save the Children Fund, of London, England, in aid of the half-million or more women and children who are among the Greek refugee army, driven out of Turkey under the Treaty of Lausanne. They constitute one of the greatest tragedies of the post-war period, as they are among the victims of war. They have poured into Greece, homeless, helpless and hungry, and they are dying like flies from starvation and disease.

Other parts of Canada are responding to this pathetic appeal, and the farmers of Western Canada are asked, through a grain campaign, to do their bit by contributing a few bushels of wheat when selling their crop at the elevator. The various grain, elevator and united farmer organizations are co-operating.

A strong western committee has been formed, with Mr. C. W. Rowley as Honorary Treasurer, with offices at 305 Scott Block, Winnipeg. The campaign is endorsed by Premier Bracken, Premier Greenfield, Hon. T. A. Crerar, and other leaders. It is confidently expected that the west, as always, will make as generous a response as the crop situation will permit. No Canadian will be the poorer for sharing a little of his substance with the starving kiddies in any part of the world.

Mr. Frank Yeigh, of Toronto, the well-known Canadian writer and lecturer, has arrived in the west to assist in the campaign, after having conducted a successful one in Ontario which brought in \$25,000.

Those who prefer to make a cash contribution may remit to Mr. C. W. Rowley, 305 Scott Block, Winnipeg.

Pines are among the few trees that can grow at a high altitude.

MISS MAE STUDER TO REMAIN IN CALGARY

The musical public of Calgary will be glad to learn that Miss Mae Studer, who is well and favorably known here, both as an individual and a violincellist, has decided to remain in this city instead of returning to Toronto, where she will be much missed. While at the conservatory of music she studied with Leo Smith, an eminent master of the 'cello, who was delighted with her work and brought her forward on many occasions in solo performance; also in instrumental ensemble. She has therefore had extensive practical experience in the playing of duets, trios, quartets and full orchestra. Outside the academic series of concerts, Miss Studer has appeared professionally as a violincellist at Hart House, King Edward Hotel and Convocation hall and will therefore prove a great acquisition among the capable artists appearing on the concert platform in Calgary.—Calgary Herald.

Removal Announcement

We wish to announce to our many customers and friends that on and after Tuesday, September 2nd, our bakery and confectionery store will be located in the Opera House block where we hope to have a continuance of your patronage.
